¹These data are preliminary and subject to revision based on late reports, final landings by incidental permit holders, and recreational landings estimates. They do not represent final landings as estimated by NMFS.

²Recreational swordfish landings are counted against the annual Incidental quota. Those estimates are not available until the end of the fishing year and therefore are not included in this report.

³These numbers reflect an August 2001 transfer of unused 1999 swordfish quota to the current fishing year.
